Apropos of nothing:

The caps and gowns the grads will wear at today's **Babson** commencement ceremonies are eco-friendly, made from 100 percent recycled plastic bottles. Each gown takes about 23 bottles to make, meaning some 20,700 fewer bottles will clog the landfills - a fitting final lesson for the business leaders of tomorrow!

Peter Allen, the writer of the upcoming crime thriller "Takers," starring **Matt Dillon** and **Zoe Saldana**, will teach a screenwriting workshop at the 12th annual **Roxbury International Film Festival** in July.
